EDUCATION

Cloud Development and Operations – Graduate Certificate Algonquin College, Ottawa - GPA: 3.96/4.0	2026 - Present
Computer Programming – College Diploma Algonquin College, Ottawa - GPA: 3.96/4.0	2024 - 2025
Civil Engineering – Master’s degree Ecole Hassania Des Travaux Publics, Casablanca, Casablanca, Morocco	2014 - 2017
Preparatory Program for Engineering Schools in Mathematics and Physics Moulay Youssef, Rabat, Morocco - Ranked in top 200 out of 4000 candidates	2012 - 2014

TECHNICAL SKILLS

Programming: Java, JavaScript, TypeScript, Python, SQL, PHP, Go (basic).

- Built full-stack and backend applications using OOP, REST APIs, SQL databases, and microservice-based architectures.

Web Development: HTML, CSS, React, Angular, TypeScript.

- Designed and implemented interactive web pages ensuring cross-device compatibility.
- Knowledge of web accessibility standards (WCAG 2.1) and inclusive design principles.

Cloud & DevOps: Microsoft Azure, Docker, Kubernetes, GitHub Actions, Git, Linux (Ubuntu), container orchestration.

- Deployed containerized and multi-service applications using Docker and Kubernetes.
- Implemented CI/CD workflows and deployments using GitHub Actions and Azure services.
- Worked with Kubernetes resources including Deployments, Services, ConfigMaps, Secrets, and persistent storage.
- Built and managed Docker images, container networking, and multi-container environments for cloud-based applications.

Databases: MySQL, PostgreSQL, Microsoft SQL Server, Oracle.

Software Tools: VS Code, Eclipse, MySQL Workbench, VMWare, Linux, Microsoft Office, Jira.

ADDITIONAL SKILLS

- Strong analytical mindset (Civil Engineering + Software Development background).
- Proven team player with strong collaboration skills, demonstrated in customer service roles.
- Excellent time-management skills, capable of juggling multiple tasks and meeting deadlines.
- Languages: Multilingual, fluent in English and French.

ACADEMIC PROJECTS

Best Buy Microservices Platform CST8915, Ottawa	2026
• Developed and deployed a cloud-native microservices platform on Azure Kubernetes Service (AKS) using Docker and Kubernetes. • Implemented containerized services, RabbitMQ messaging, MongoDB integration, and REST-based communication between microservices. • Configured Kubernetes deployments, services, ConfigMaps, CI/CD workflows, and deployment testing pipelines using GitHub Actions. • Troubleshoot containerized microservices, Kubernetes deployments, and inter-service communication issues in Linux-based environments.	

Recall - AI-Powered Meeting Intelligence Platform (RAG Application)

2026

CST8912, Ottawa

- Developed a full-stack RAG platform for AI-powered search and Q&A over meeting transcripts using Python (FastAPI) and React.
- Implemented transcript parsing, semantic chunking, embedding pipelines, and vector search using PostgreSQL pgvector.
- Integrated AI model APIs including Gemini embeddings and Groq-hosted Llama models, along with Supabase authentication.
- Designed AI chat dashboard to monitor retrieval quality, system performance, and API behavior during testing.

PlanItWise - Personal Finance Goal Tracking Application

2025

CST8319, Ottawa

- Built a full-stack finance tracking app using Angular, Node.js, and MongoDB (MEAN stack).
- Implemented savings goals, contribution tracking, and milestone progress visualization.
- Designed responsive UI and integrated RESTful APIs for dynamic data handling across devices.

PROFESSIONAL EXPERIENCE

Tutor

2024

Algonquin College, Ottawa

- Provided one-on-one tutoring in computer programming, database management, and math, enhancing students' understanding and academic performance.
- Developed customized lesson plans to meet individual student needs, clearly explaining complex technical concepts.

Sales Floor Associate

2022 - 2024

Walmart, Ottawa

- Assisted customers in finding products, provided product information, and resolved inquiries with strong problem-solving skills.
- Utilized data entry and management systems to track inventory levels and sales performance, enhancing technical proficiency and attention to detail.

Founder and CEO

2021 - 2024

Ma Spatule Blanche, Morocco

- Developed business plan including market analysis, go-to-market strategy, and financial planning.
- Led brand strategy and managed full business operations including budgeting, pricing, accounting, and marketing campaigns.
- Hired and coordinated subcontractors and managed 10+ suppliers.

Structural Engineer

2020 - 2021

LUSEO Maroc, Rabat, Morocco

- Planned, conducted, and managed technical studies for building projects.
- Estimated costs of construction works, highlighting analytical and budgeting skills.
- Evaluated tender documents for construction projects, and selected the most competitive proposals, showcasing decision-making and analytical skills.

Field Civil Engineer

2017 - 2019

SOGETRAMA GLS, Rabat, Morocco

- Supervised construction works for drinking water treatment plants in two cities.
- Coordinated among key stakeholders across projects: clients, subcontractors, engineering offices, showcasing communication and coordination skills.
- Managed project budgets, from initial financial planning, to monitoring invoicing, to analyzing revenue variance and prepared technical files and verification files.
